Page	Location	Correction
556	The solution to example 19.6	The last byte of the binary after setting the right most bits to 0 shows only 7 bits instead of 8. The last 0 bit is missing. The value should be 0010 0000 .
559	As an example, suppose an organization is given the block 17.12. 40 .0/26	The 3 rd octet should be 14 instead of 40; i.e. 17.12. 14 .0/26. (According to Figure 19.7 and the solutions on p. 560)
583	Figure 20.5	The maximum size is 65,535 ($2^{16}-1$) not 65,536. This includes the header and data. See. Pg. 586.
797	Figure 25.1, rightmost box	Should be “DNS server ”
